As St Francis Catholic College's preferred Apple supplier, MAC1 has developed program offerings to cater to a wide range of needs within the school community. Our extensive 1:1 program experience across the many schools has taught us that a parent funded program requires more than simply purchasing options for technology. We take an holistic approach to technology-based learning, offering complete product solutions, insurance protection, on-going support and finance options to ensure your child has access to this uniquely engaging device both in and out of the classroom.
